Now you can buy that Kodak you have wanted for so long, or you can give one for Christmas. Why not give that boy or girl a Brownie?

REXALL DOLL CONTEST

Do not forget our Rexall Doll and Wagon Contest for the kiddies. Fifteen beautiful prizes. Help your favorite little girl or boy friend win one. We give votes on all purchases with the exception of a few items—the products of manufacturers who restrict us from giving votes on their goods.

STILES, "The Druggist" The Rexall Store

BASSANO - ALBERTA

THE BASSANO MAIL
Published every Thursday
Wallace J. Smith
Editor and publisher

Only fourteen more shopping days
before Christmas. "Do your Christmas
shopping early," still holds good.

Canada has again demonstrated
her leadership in wheat growing.
This year a Saskatchewan farmer
won the wheat championship at the
World's Fair in Chicago. The famous
Herman "Pecos" River, wasn't among the
competitors, but he was runner-up.
Three times, he was barred from
competition this year.

We haven't heard anything more
of the canning factories which was to
be built in Bassano. It is unfortunate
if plans for the erection of
a factory have been abandoned.
The property is an ideal one for
the plant. It is a good place to have
a ready market for garden vegetables
and meat products. A good market
could be made in a short distance.
An endeavor will be made
to keep the business open.

Japan has "stolen" a large part
of Great Britain's cotton trade in
recent years. The market is strong
but trade is not. The Philippines
is the only country that has
not suffered from the loss of
American manufacturers.

Japan's industrial activities have
been increasing rapidly. She is
now the fourth largest producer
of coal in the world. She is
a good market for the products
of the western world.

YOUR HELP NEEDED

Sunshine's job is to help those
who are in need. Sunshine
has not improved during
the past twelve months, and
there are a number of local families
who are in need of help.

Sunshine's job is to help those
families to warm clothing
and to help those who are
without parents, canaries, and
winter underwear and sweaters; and
to help those who have little
and need protection on the journey
to and from school every day.

There are ragged youngsters
in Bassano who have no
shoes, who shiver when they
go out of doors because they haven't
any coat or hat. Sunshine has
been trying to help these
and the support of you and
I would be appreciated.

Sunshine has arranged
a meeting at the Legion Hall
on December 10th.

This committee has undertaken to
provide for the needy families
in Bassano this winter, and their
first task is to launch a drive for
clothing.

They want everybody to go there
and contribute a coat, a sweater, or
discarded clothing—wearing apparel
for men, women, and children
for the winter. Sunshine's job is
to help those who are in need.

They can be handed up
to Sunshine, and the articles
will be distributed to the families
in need.

Just mighty Joe D. Donahue, Sunshine
secretary, or any other member
of the committee, Sunshine will
call your bundle next Thursday.

Dec. 14.

SEWER TO BLAME

Pedestrians on Third Avenue west
have been somewhat puzzled con-
cerning the obnoxious odor vitaling
the air in that section of town. The
Mail office. There has been
speculation as to the source of this
odor, or to use a more descriptive
word, the smell. It has been
suggested that a small animal with
a naked strip of skin under his
naked skin had been buried in the
Mail office as a pet of the editor.

Realizing the gravity of the situation
the editor of the Mail office conducted
a personal investigation and found
the cause of the obnoxious odor
was the sewer gas rising from
the prevailing winds from the
west and they waft the gas in the
direction of the office. The
pedestrians get the full force
of the gas as he passes.

At least, we hope so. Last Saturday

the town public works department
had a crew out to clean out the
clogged sewer a cleaning out. The
trouble seems to have disappeared,
and the air is sweet again.

STRATHMORE EDITOR DIES

Andrew A. Moore, editor of the
Strathmore Standard, and formerly
a printer, died at his home in Strathmore
Sunday evening, Dec. 3, following an
illness of one week. He was 65.

The late Mr. Moore was born in
Kingston, Bruce County, Ont., and
came to Strathmore in 1907. He
joined the staff of the Kingston
News. He was also employed on the
staff of the Strathmore Standard
for a number of years prior to
coming to Strathmore in 1907, as business
and financial manager.

Surviving are his wife, residing at
Strathmore, and two daughters, Mrs.
Mabel Moore, Mrs. Nedra Moore, both
of both of Calgary.

The Mail extends

Hay May be Kept Many Years If Properly Stored

A series of weekly letters will be
published from the Dominion Range
Experiment Station, Manirrobin,
Alberta, in which topics relating to
the care and handling of hay
will be discussed. This station has
conducted its investigations to determine
the factors affecting the storage
of hay and the results will be published
as the season advances.

It is recommended that it is im-
possible to cover all these points
in the space available, and the
operator will have to rely on his
own particular conditions.

Further information than what is contained
in these weekly letters will be
available from the station, the
Bassano Service Station, and the
Bassano Creamery.

A comparison was made with
the feeding value of similar hay taken
from a well known test—Henry and
Montgomery, and it was found that
the value of feeding value was no
loss in feeding value when keeping
hay in well built stacks over a period
of time.

It is recommended that when
stacking hay during the winter,
the stack should be built in a
square shape.

The usual practice when having
hay stacked is to build small
stacks during the winter, and if any
of these stacks are left over, it is
recommended that if they are not
large stacks, or as an alternative,
some of the smaller stacks may be
used first.

By stacking surplus hay during
the winter, practically all moisture
is excluded, the hay may be stored
for a long time.

The amount of winter feed determines
the number of cattle that can
be kept, and the amount of feed
varies from year to year and every
few years there are severe weather
conditions which affect the feeding
operations. Hence, these operators
who have not a reserve supply of
feed may have difficulty in
determining when to start feeding.

The amount of feed available
will determine the number of cattle
which can be kept, and the amount
of feed available will determine
the number of cattle which can be
kept.

TIGER EYE

by D. M. Cover

TWELFTH INSTALMENT
We rode out of town at noon. Bassano took his car and when he stopped to balance the big bulging pack on his back. Fecos, too, carried more than his share. He had a pack containing five pounds of candy, and a satchel and two cartons of cartridges strapped to his back. The other two were strapped to his belt. The kid's pockets sagged with six new mouth organs, two new hats, D. M. with a new board box.

The kid was not much ready to shoot. "Kain's been Murray's boy with a killer not a cur to take a licking and crawl off under the brush and whoop it up. I'm not much good at shootin' to start in taming the killers. Right now, now, the name of the game is to get back to the village, glances back over their shoulders and make a prickle go up into the roof of the mouth. Range time was going on the prowl.

It was hot down in that valley. The sun was high. The kid was riding. They came out finally against a barbed-wire fence, built straight across the valley. The fence posts that looked solid as the teeth in the kid's mouth. Four wires and a top wire bound the fence, tuning fork when the kid leaned over and gave on a jerk. No, nothing was to be seen. The fence was storm proof, like the fences the railroads built along their right-of-way. The fence was storm proof, like that over in this part of the country. This wasn't Poole land, and he never had been in Poole land. He had a reaction. No trails coming up this way; no nothing. Bassano was mystified.

They followed the fence for half an hour of steady plodding along the river bottom up to fence posts. They came up against a sandstone ledge where the last post stood. The fence was built of rock and was set there with cement. And that was plumb strange, too. Not like Poole's fence posts. Couldn't even ride back against the edge of the willows because the willows were broken, rock and rubish from the steep slope that evidently stood above the ledge.

Once more the kid turned. Fecos short around, and rode back along the river bottom. A creek bed covered with hot sun-baked, rubble stones with stagnant pools in the bottom. The pools became a brush, and the brush became a tiger's head. No animal bigger than a dog had ever rung him. He rode another mile or so before he came to the edge of the mountain, and the mountain led to the other arm of the mountain, leading to the canyon.

An hour or more later, Fecos stood on a ridge, breathing hard, completely winded after the steep climb. He had plenty of time to rest and recover.

He had met his glasses a little and saw a horseman just riding out of sight. He had a long, long gaze. His eyes blazed with a peculiar gleam, but it seemed he was playing with a knife, and the knife was a horse and rider came into view. The kid gave one startled look and the horse and rider were gone.

He saw the horse slow along the canyon bottom, with his mouth open as he went, and letting his long hair blow in the wind. The kid's eyes blazed with a peculiar gleam, but it seemed he was playing with a knife, and the knife was a horse and rider came into view. The kid gave one startled look and the horse and rider were gone.

Nellie Murray, dressed in her dead brother's overalls and blue gingham, stepped out of the bushes. Her hair was sweeping the canes of her saddle as she rode. She carried her gun in her belt, and her hair was as if the waist to meet danger: than another cut of the gun.

"Woh! I've found you. Where are the cattle?" she demanded.

Of his neck had a queer tightening hoof he owned. We only had forty-two hoof. Now we haven't got forty-two hoof. You know what I mean?"

"Well, I've got you. I'm going to get them back. If I have to fight ever. Texas killer in the country. You know what I mean?"

"Well, that remains to be seen. I'm not a killer. I'm not a killer. I'm not a killer. Told ya all that before."

"Well, that remains to be seen. I'm not a killer. I'm not a killer. I'm not a killer. Told ya all that before."
